

# Jekyll Hyde

They call me Jekyll but I go by Hyde  
Know that I'm different but same every time  
Jekyll by day and I'm still at my prime  
And by night I be Hyde with a scarier side

They be so mortified, livid I jive  
When I give 'em a vibe and salvation lie  
And this side I can't hide and they will not survive  
And I'm No longer Jekyll now going by Hyde and I'm

Still not bad, uh  
Got good in the back don't hide, I'm a book of pride  
I'm a Jekyll Hyde, uh  
Two sides and I lie with truth, but the truth don't lie  
But the truth is true I'm a dude with knives  
I'm a guy with good in the back with lies  
You got that bad in the back from jives  
I'm Hyde and I wanna get by with crimes

A soul for sin and I might not win  
I just can't get a hint  
Of my own two sense, two face, insane  
With a name so great in the game  
I don't need no meds got my own cure  
Got my own lil break in the new year  
That's Hyde with the talk, ego on the clock  
And it's time for the change and I'm back in the game like

I'm Hyde, I'm Hyde, killing for the grand prize  
Living for the franchise, killing for the band life  
Telling me I can't die? I'm really the bad guy  
I will never know love, speaking of my back life  
Living with the man's eye, women I will scan mine  
Saving all the kids I, live inside a plan I  
Live it for my own mind, living in my own time  
I just wanna be like Christ
